I couldn't make any bread by myself when I was six. I could make muffin, scones, cheese bread and green tea bread by myself now.

Yummy! 😊

I couldn't manage my time by myself when I was seven. After school, I didn't have time to play with my family. I want to read books and watch TV. I could manage my time by myself now.

Nice!

I couldn't comb my hair by myself when I was four.
Now I can do many things! I can braid my hair with
many styles.

Beautiful!
